| LED indicator<br>Blue /White Red           | Working status<br>Mic and speaker mute                                                                          |
| Voice Pickup                               | 5 M                                                                                                             |

## RECOMMENDED CONDITIONS

|                     |               |
|---------------------|---------------|
| Temperature         | 5°- 40°       |
| Humidity            | 20 - 85%      |
| Noise Level         | <48db         |
| Storage Temperature | 10°- 40°      |
| Reverberation time  | < 0.5 seconds |
